

# SHAHID

Data Scientist

---

## Professional Summary

Motivated and detail-oriented Data Scientist with a strong academic background and hands-on experience in building end-to-end machine learning solutions. Skilled in data analysis, feature engineering, model training, and deployment. Passionate about using data-driven approaches to solve real-world problems and deliver impactful insights.

---

## Education

**Bachelor's Degree (Relevant Discipline)**

CGPA: 8.5 / 10

---

## Technical Skills

- **Data Analysis & EDA:** Data cleaning, data visualization, statistical analysis
  - **Feature Engineering:** Feature selection, feature scaling, data transformation
  - **Model Training:** Machine Learning model development and evaluation
  - **Deployment:** Model deployment using basic production workflows
  - **Tools & Concepts:** Machine Learning fundamentals, predictive modeling
- 

## Project Experience

### Diabetes Prediction System

- Developed a machine learning-based system to predict the likelihood of diabetes using patient health data.
  - Performed **Exploratory Data Analysis (EDA)** to identify patterns and important features.
  - Applied **feature engineering** techniques to improve model performance.
  - Trained and evaluated machine learning models to achieve accurate predictions.
  - Deployed the trained model for practical usage and testing.
- 

## Academic Achievements

- Maintained a strong academic record with **8.5 CGPA**.

- Completed data science projects applying theoretical concepts to real datasets.
- 

## **Strengths**

- Strong analytical and problem-solving skills
  - Quick learner with a passion for data and AI
  - Ability to work independently and in a team environment
- 

## **Declaration**

I hereby declare that the above information is true and correct to the best of my knowledge.
